1. Reference b., attached, describes the DD/S&T tasking for a USIB exercise involving a review of intelligence capabilities and gaps affecting advanced weapons programs of Communist China. Because of the comprehensive character of the required DD/S&T response, I asked OSI to prepare a draft which could serve as a model, or working paper, for comments by other interested components of this Directorate. The OSI product, reference a., is attached hereto.

2. Please review the references and attachments. Make any additions, corrections or comments to reference a. that you feel are appropriate and necessary to provide a comprehensive report on this matter to the USIB by this Directorate and the CIA. I would appreciate receiving your response by COB 5 February. Please contact me if you have any questions in connection with this exercise or if you are unable to meet the 5 February deadline.
